## Week At A Glance

**November 20, 2023**

### **WEEKLY NEWS AND REMINDERS**

**Bullying Awareness and Prevention Week** - During Bullying Awareness and Prevention Week, Ontario students, school staff and parents are encouraged to learn more about bullying and its effects on student learning and well-being.

Bullying is behaviour that makes the person being bullied feel afraid or uncomfortable. It can be in the form of unwanted repeated aggression or happen one time. It can be carried out by one person or a group of people.

Bullying can happen in situations where there are real or perceived power imbalances between individuals or groups. It may be a symptom of bias and discrimination. Bullying can also be based on real or perceived differences that are often based on stereotypes in broader society.

**Bullying is unacceptable in all its forms.** All members of the school community should feel safe, included, accepted, and engage in positive behaviours and interactions.

**Canada History Week** - Canada History Week 2023 takes place from November 20 to 26. This year's theme is the History of Black Achievement in Canada. The week encourages Canadians to reflect upon and engage with Canada's past

#### ***Canadian Alliance of Black Educators***

Forty years ago two African-Canadian Ontario residents decided to challenge the educational marginalization of Black learners, and thus enhance the socio-economic locations of future Black generations. Their determination to take action was both ambitious and courageous, especially since this vision materialized during the late socially-unsettling 1970s and was institutionalized in 1980.

The Canadian Alliance of Black Educators (CABE), incorporated in 1980, was the brainchild of Oscar Brathwaite, retired educator, and the late David Melville, educator, both of the Greater Toronto area, Ontario. The civic agenda spearheaded by Brathwaite and Melville would draw others into action and the organization CABE would enhance the future of unrecorded numbers of Blacks.

Especially important were educational remediation offered in the Saturday morning tutoring classes, advocacy with Boards of Education, and research which exposed systemically embedded issues which impeded the life chances of Black learners in Ontario.
